**Study ID**  
  
\_\_\_\_\_

**INSTRUCTIONS TO STUDY STAFF:** Complete Form H06 to account for missing or mistimed clinic / sleep study elements after consented and eligible. Complete Form H07 to account for a pregnancy with an APO reported on the interval contact form where some element of the chart abstraction for that pregnancy could not be completed. Multiple columns are provided for Form H07 to report on missing chart abstraction data from different pregnancies. H06 and H07 are different data forms in the data entry system. No data entry is required for H06 unless there are missing or mistimed data for the clinic / sleep study visit. Similarly, no data entry is required for H07 unless there are missing data for one or more pregnancies reported on the interval contact form where an APO was reported.
